FINANCIAL MANAGEMENT IS WOMEN'S FREEDOM

Div.E Project - Divenire per Essere (Becoming to be)
Sustained by the R.E.R. Del. 748 del 15.05.23

INTRODUCTION TO THE PROJECT

This project was born out of the felt need to bring accessible information in terms of clearness and simplicity, to all women, on apparently difficult topics that seem so far away from our daily reality but which instead turn out to be crucial precisely because the “management of having” matches with the result of “becoming”.

The QR-CODE provides access to useful information, advices, links, practical examples and multilingual translations so that every woman can try to approach the management of her financial resources without running into mistakes that could affect her future.

THE MATTER OF MONEY

It has its roots in culture and society. Even today, in many families, money management is a male prerogative.

A conscious financial management acts as lever for social inclusion and can represent an important element of prevention against gender-based violence.

ECONOMIC VIOLENCE affects around 25% of women, even reaching 40% in some Italian regions.

1.

PURPOSE OF THIS GUIDE

According to the data drawn up by the Bank of Italy, the gender gap on financial knowledge in our country is the widest among other EU countries. More than 7 times out of 10, it is the man who makes the couple’s financial decisions.

This guide can help us to get closer to the awareness that money management, knowledge of pitfalls, and/or opportunities and benefits that a “signature” can lead to and thus the importance of knowing how to recognise risks, as well as awareness of one’s equal rights in the workplace, are crucial to bring solidity to our lives and to look forward for a future protected from the unexpected.

THIS GUIDE IS THEREFORE DEDICATED TO US WOMEN

A tool that can help us strengthen and enhance our self confidence in looking at “money” topics, not with superficiality and indifference or fear, but with greater responsibility, interest and even confidence.

2.

HOW TO REDUCE THE GENDER GAP WITH FINANCIAL EDUCATION

It is central to make women more aware of some essential aspects by making them conscious of the basics of **financial education** such as:

- ▶ HOW THE FAMILY PROPERTY REGIME WORKS
- ▶ KNOWING THE USEFULNESS OF A BANK ACCOUNT KNOWING INHERITANCE RIGHTS
- ▶ KNOW YOUR INHERITANCE RIGHTS
- ▶ CONCLUDING COHABITATION AGREEMENTS FOR UNMARRIED PERSONS
- ▶ INFORMATION AND PAPERWORK FOR BUYING A HOUSE
- ▶ HOW TO UNDERTAKE A BUSINESS ACTIVITY
- ▶ HOW TO MAKE A WILL
- ▶ EQUALITY AT WORK

In our area there are professionals available to clarify, support and advise.

3.

By accessing the QR-CODE you will find a summarized version of each of the three meetings of the financial education course entitled “Give value to your future organized in the Council Chamber of the province of Piacenza in collaboration with:
